PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js with hands-on experience building responsive and real-time web applications using JavaScript (ES6+), Tailwind CSS, and modern UI practices. Experienced in REST API integration, authentication, and real-time features with Socket.IO. Open to immediate Frontend / React Developer opportunities in Gurgaon.

EXPERIENCE

Software Development Intern, Analyze InfoTech (Lucknow) Jan 2023 – Sep 2023

- Completed industrial training and internship in Software Development and Testing.
- Developed a **Vehicle Renting Service** application as a major project.
- Worked with **Java (J2SE/J2EE)**, MySQL, and frontend technologies for UI development.
- Assisted in building application features, testing modules, and improving usability.
- Collaborated with team members to complete project deliverables within deadlines.

PROJECTS

Portfolio Website GitHub — Live Demo

- Built a modern personal portfolio using React, Tailwind CSS, and Framer Motion, achieving 100% mobile responsiveness.
- Implemented smooth animations, responsive layouts, and optimized UI for all screens.
- Showcases projects and includes a recruiter contact form.

Real-Time Chat Application GitHub — Live Demo

- Developed a real-time chat application using React and Socket.IO, supporting instant message delivery for 50+ test users.
- Implemented user authentication, avatar selection, and message persistence.
- Designed a mobile-first UI using Tailwind CSS.

Medicine Management Application GitHub — Live Demo

- Built a React-based medicine management web application to perform full CRUD operations.
- Implemented features to add, edit, view, delete, and search medicine records efficiently.
- Used Context API for state management and LocalStorage for data persistence.
- Designed modular and reusable React components with React Router for navigation.
- Improved understanding of component architecture and client-side data handling.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks & Libraries:** React.js, Tailwind CSS, Framer Motion, Axios
- **State Management:** Context API, Redux (Basic)
- **Tools:** Git, GitHub, VS Code, Vite, npm
- **Concepts:** Responsive Design, SPA, Component Architecture, REST APIs
